

Regulatory Summit Latin America

20–21 July 2021

**Chemical
Watch**
an **enhesa**.company

Welcome

Welcome to **Regulatory Summit Latin America**. We're delighted that you're able to join us for this Chemical Watch virtual conference.

As chemical regulatory policies develop throughout the industry, we know how important it is for you to stay up to date on all the important changes and what they mean for your business. Today we're delighted to welcome a panel of fantastic expert speakers to bring you the key updates through presentations, panel discussions and interactive Q&A sessions.

As the situation with Covid-19 develops around the world, the Chemical Watch team has been adapting and developing our offering to ensure you still receive the business-critical information you need and have access to solutions to maintain and develop your professional skills. We hope you find the presentations and discussions useful and encourage you to take part in the virtual Q&As throughout the programme.

Wishing you a successful and productive event.

Judy Jackson
Events Director
Chemical Watch

Key Regulatory Updates: Europe, Asia and the Americas

This latest edition in the Chemical Watch global regulatory updates series will look at the most recent updates in chemicals control legislation across Europe, Asia and the Americas.

Current regulatory challenges facing those working on the safe management of chemicals will be presented on our virtual conference platform, via keynotes, presentations, panel discussions and interactive Q&A sessions.

Key topics include

- the EU chemicals strategy for sustainability;
- UK REACH;
- developments across Asia Pacific;
- federal and state level updates from the US;
- developments with PFASs;
- global regulatory cooperation;
- product and supply chain regulatory challenges; and
- the risk assessment of chemicals.
